The bill amends Section 501 of the Liquor Control Code of 1998 by permitting a local legislative body to adopt a resolution to request the Liquor Control Commission to revoke the license of an on-premises licensee found to have had violent incidents on the premises or in adjacent areas owned or controlled by the licensee. If the Commission verifies that the licensee has had at least 3 separate violent incidents in a single calendar year, the Commission is required to suspend or revoke the license and any related permit. The Commission may make a determination that a violent incident has occurred even if the incident has not resulted in a criminal conviction. "Violent incident" is defined as an event that could be reasonably considered by the Commission as violating six listed violations of the Michigan Penal Code.
